

SCHOOL SUBSTANCE USE POLICY

“School Drug Policy”

Introduction

A drug can be defined as a chemical, which causes changes in the way the human body functions mentally, physically or emotionally. For the purpose of this policy we are concerned with drugs which have the power to change a previous mood and the way a person thinks about things and drugs or which the taker may become physically or more often psychologically dependent.

The school sees itself as having a role in the process of enabling students to increase control over and improve their health. We endeavour to promote the well being of students by: -

1. Providing a safe and healthy environment.
2. Promoting positive health behaviours.
3. Increasing knowledge about health.
4. Promoting the self-esteem and self-awareness of students.
5. Working in partnership with the parents and pupils.

To this end, in response to the encroaching drug culture in our society we feel the need to implement a comprehensive policy to address the problem of substance misuse.

The Policy will focus on: -

1. Strategies for prevention of substance misuse problems i.e. Walk Tall, Alive-O, S.P.H.E.
2. Procedures for dealing with drug incidences in the school.
3. Guidelines and information for teachers to improve their response to the problem of substance misuse.

This document should read with the Code of Behaviour Discipline policy of the school.

Implementation of the Policy

The policy will be available from the principal to the B.O.M., Teachers and other staff members.

Parents and guardians will be given a copy of the policy on enrolment of their child in the school. Enrolment will be on acceptance of this and other school policy documents by them.

The policy will be regularly evaluated and updated where necessary.

The school wishes to make clear that the primary role of substance misuse prevention rests with the parents.
